

Additional Information
May 14, 2024 Board Meeting

The following additional information was provided regarding the May 14 Board meeting agenda:

Item 3.b, Budget Adjustments and New Grant:

1. What are ATTI workshops and how are public school districts involved in the budget adjustments? (Also, please remember to spell out uncommon acronyms in the future.) **ATTI is the Advanced Transportation Technology and Energy Initiative. Several years ago, Cypress College faculty provided ATTI Workshops under the Advanced Transportation Technology and Energy Initiative to various entities including school districts. The school districts, including Centralia and Savanna, reimbursed NOCCCD for this training.**

Item 3.i, Study Abroad Program in Florence and Rome, Italy:

1. Are the dates in the second paragraph of the background correct? **The dates are correct; March 27 – April 5, 2025 (during spring break). This is the first spring break program and it is designed for CTE students taking architecture classes. CTE students are a unique population that have a difficult time committing to a full semester or even a several-week summer program due to job and family obligations and these short-term programs are a good alternative.**
